Locating restored files 1

Locating restored files

When some files or folders are restored, they are contained inside a newly created restore folder. To help you easily identify your restored items, you can download an Excel file with the names and locations of your restored files and folders.

Steps

1. Click  on the left navigation pane.
2. Under **Recent Completed Jobs**, click the job for which you want to find restored files.
3. Click **Download** in the upper right.
An Excel file is downloaded locally containing the names and locations of restored files for the specific job.
